U.S. MARSHALS ARREST TRIPLE HOMICIDE SUSPECT

SAN JUAN, P.R. – The U.S. Marshals Service-led Puerto Rico Violent Offenders Task Force in the District of Puerto Rico arrested a man wanted for federal supervised release violation and in connection with a triple homicide.

Jose Luis Cintron aka “Bebo Segueta” was wanted by U.S. Marshals for supervised release violation from a 2015 federal weapons violation conviction. Puerto Rico Police developed information connecting Cintron to a triple homicide that occurred at a local restaurant October 20 in the town of Bayamon.

PR Police requested the assistance of the PRVOTF. On Nov. 3, 2017 task force investigators developed information that placed Cintron at the Las Brisas Housing Project in Bayamon. PRVOTF arrived at the location, arrested Cintron without incident and transported him to Bayamon State Prison. Support was provided by members of the Puerto Rico Police special arrest, intelligence and homicide units.

PRVOTF believed Cintron was hiding in different locations throughout the metro area after he was featured by the local media as one of the Puerto Rico Police most wanted.

“This arrest is a testament to the outstanding investigative work and tireless efforts of the U.S. Marshals Service, the Puerto Rico Violent Offenders Task Force and our local partners who worked together to bring this dangerous fugitive to justice and make our streets safer, especially during this time of crisis in Puerto Rico,” said Orlando Rivera, U.S. Marshal for the District of Puerto Rico.

The PRVOTF is a multijurisdictional task force composed of investigators from the Puerto Rico Police Department, San Juan Municipal Police, PR Department of Corrections, PR State Marshals and the State Internal Revenue Service.

Additional information about the U.S. Marshals Service can be found at <http://www.usmarshals.gov>.
