OPTIONAL FORM 307 (9-97)
Prescribed by GSA - FAR (48 CFR) 53.215-1(e)
PART I - THE SCHEDULE
SECTION B - SUPPLIES OR SERVICES AND PRICES/COSTS

B.1 SERVICES AND PRICES

(a) NONPERSONAL SERVICES

The contractor shall provide all personnel, equipment, tools, materials, supervision, and other items and services necessary to perform the management and operation of a contractor-owned/contractor-operated detention facility for federal detainees as defined in this Request for Proposal (RFP).

These comprehensive detention services will serve a population principally consisting of individuals charged with federal offenses and detained while awaiting trial or sentencing.

The period of performance for any contract, which the Government may award under the terms and conditions of this RFP, will be for a five-year base period, with up to three five-year options to extend. Potentially, the contract could be for a twenty-year period.

(b) PRICING INSTRUCTIONS

For purposes of this solicitation, the offeror must submit an offer for the total five-year base period requirement and each option period. The prices will be for providing all services as required by the solicitation.

For each performance year of the multi-year base and option periods, the Government will notify the contractor that funds are available for performance no later than the first day of the pertinent fiscal year. If the contractor is not notified, cancellation of the contract will occur within 60 days of the start of the pertinent fiscal year.

Accordingly, years two, three, four and five of the base are subject to cancellation in the event funds are not available. The cancellation ceilings for the base period years are as follows:

Year 2 - 30% of the Total Base Period Price
Year 3 - 15% of the Total Base Period Price
Year 4 - 15% of the Total Base Period Price
Year 5 - 15% of the Total Base Period Price

There is no cancellation fee for option periods. Any cancellation and related contractor claim for costs will be handled according to FAR 52.217-2, Cancellation Under Multi-year Contracts (See Section I of the solicitation) and the cancellation ceilings set forth above.

(c) PRICING SCHEDULE

For purposes of price evaluation and according to the above instructions, the offeror must enter the proposed prices on the Pricing Schedules as provided below:

Five Year Base Period - For the base period, offeror must submit one fixed price. The price will
be for providing all services as required by the RFP for an Average Daily Population (ADP) aggregated monthly (equivalent to 75% of designated federal bed space) as stated in the individual schedules. Monthly payment shall be based upon the contractor's fixed price divided by 60 (the number of months within the performance period).

**Fixed Incremental Unit Price** - Offeror must submit an incremental unit price which will apply only when the daily population exceeds 75% of the designated bed space which is 602. Population will not exceed 115% of the designated bed space except in an emergency situation as declared by the USMS.

**Option Periods** - Offeror must follow the directions provided above for each option period. Monthly payment will be based upon the contractor's fixed price divided by 60 (the number of months within the option performance period).

C.2 Introduction

This Performance Work Statement (PWS) sets forth the contract performance requirements for the management and operation of a Contractor-owned/Contractor-operated detention facility for federal detainees. The population will be individuals charged with federal offenses and detained while awaiting trial or sentencing or hearings. The Office of the Federal Detention Trustee (OFDT) on behalf of the USMS will award a contract that allows the components of the Department of Justice, including the USMS Districts of Kansas, Nebraska, Eastern Missouri, Western Missouri, South Dakota, Iowa, Bureau of Prisons (BOP), as well as the Bureau of Immigration and Customs Enforcement (ICE) of the Department of Homeland Security (DHS), to house detainees at the facility.

In order to use the facility, ICE and the BOP must receive prior written approval from the Contracting Officer’s Technical Representative (COTR) with a copy to the Contracting Officer. ICE and the BOP shall issue the delivery orders against the contract with copies provided to the COTR and Contracting Officer (CO) after receiving COTR approval. Once the approval is received the contractor shall provide housing space for ICE and BOP’s detainees. The contractor shall bill ICE and the BOP directly with copies to the COTR and CO. ICE and the BOP shall be responsible for payment of all invoices directly to the contractor. With 14 days notice, the USMS may require ICE or the BOP to relocate their detainees to other facilities.

The Facility shall have the capability to accommodate at least 802 detainees (male and female) at a single site. In addition, the institution shall include special housing units with a capacity of at least 10 percent of the detainee’s beds at the facility.

The facility shall be located within the District of Kansas. The facility shall also be located within appropriate proximity and access to emergency services (medical, fire protection, law enforcement, etc.).

Within 90 days of contract award, contract performance shall begin upon written issuance of the Notice to Proceed (NTP) signed by the CO. Upon receipt of the NTP, the contractor shall immediately begin accepting detainees. The Contractor’s ability to perform in accordance with the terms of the contract will be assessed prior to issuance of the Notice to Proceed (NTP). (See Section F.2)

The initial acceptance of detainees into the facility shall be in accordance with an agreed upon plan to incrementally phase-in the detainee population. Approval for each initial increment of detainees to be admitted into the facility shall be obtained from the COTR.

Unless otherwise specified, all plans, policies and procedures, including those identified in the ACA Standards and the Performance-Based Detention Standards (Section J, Attachment 10), shall be developed by the Contractor and submitted in writing to the CO for review and concurrence prior to issuance of the NTP. Once concurrence has been granted, these plans, policies and procedures shall not be modified without the prior written acknowledgment of the CO. Whether required by this PWS, elsewhere in this contract, or within the Contractor’s proposal, the Contractor shall adhere to all plans requested and incorporated in the resulting contract. The Contractor does not have a right of refusal and shall take all referrals from the USMS. The Contractor shall furnish all personnel, management, equipment, supplies and services necessary for performance of all aspects of the contract. Unless explicitly stated otherwise, the Contractor is responsible for
all the costs associated with and incurred as part of providing the services outlined in this contract.

C.2.1 General

All services and programs shall comply with the PWS and all applicable federal, state and local laws and regulations; applicable Presidential Executive Orders (E.O.), Congressional mandates, case law and Court Orders. Should a conflict exist between any of the aforementioned standards, the most stringent shall apply. When a conflict exists and a conclusion cannot be made as to which standard is more stringent, the CO shall determine the appropriate standard.

The Government reserves its rights to conduct announced and unannounced inspections of any part of the facility at any time and by any method to assess contract compliance.

Unless otherwise specified by the CO, the Contractor is required to perform in accordance with the most current editions of the Performance-Based Detention Standards (Section J, Attachment 10), American Correctional Association (ACA), Performance-Based Detention Standards for Adult Local Detention Facilities (ALDF), and Standards Supplement, National Commission on Correctional Health Care (NCCHC) Standards for Health Services in Jails (current edition).

The Contractor shall obtain ACA and NCCHC accreditation within 24 months of NTP and shall maintain continual compliance with all ACA standards and supplements during the performance of the contract, unless otherwise specified by the USMS. If the facility is already ACA accredited at the time of Contract Award, the offeror shall maintain accreditation for the term of the contract. Once full accreditation has been obtained, the Contractor shall maintain this accreditation throughout the life of the contract, inclusive of any option periods exercised. Failure to perform in accordance with contract requirements and to obtain ACA accreditation within 24 months from the NTP may result in a reduction of the contract price.

Accomplishment of some ACA standards is augmented by the Performance-Based Detention Standards (Section J, Attachment 10)/DOJ/USMS' policy and/or procedure. In these instances, the PWS identifies and provides direction for the enhanced requirements. In cases where other standards conflict with USMS' Policy or Standards, USMS' Policy and Standards shall prevail.

This PWS contains numerous references, which direct the Contractor to notify, contact or provide the CO with information or data. Post-award, the CO may formally designate the COTR to assume some of those responsibilities. The COTR does not have the authority to modify the stated terms of the contract nor to approve any action which would result in additional charges to the Government. All such changes must be made in writing by the CO.

All records related to contract performance shall be retained in a retrievable format for the duration of the contract. Except as otherwise expressly provided in this PWS, the Contractor shall, upon completion or termination of the resulting contract, transmit to the Government any records related to performance of the contract.
The Contractor shall comply with all statutes, regulations and guidelines from the National Archives and Records Administration. Records and information management functions are required and mandated by the following regulations: 44 U.S.C., 21, 29, 31 and 33; 36 CFR 12; 41 CFR 201 subchapters A and B; OMB Circular A-130; and DOJ Order 2710.8A, Removal and Maintenance of Documents. Criminal penalties for unlawfully destroying, damaging or removing federal records are addressed in 18 USC 2071, 793, 794 and 7989.

Prior to issuance of NTP, the Contractor shall designate in writing the Health Authority (HA) for the facility that shall be responsible for the delivery of health services under the contract. Only a licensed physician may be appointed as the facility Health Authority. The HA shall have full authority to act on behalf of the Contractor on all matters relating to the operation of the health services portion of the contract.

C.6.3 Facility Health Care Services to Detainees

All in house health care services shall be provided within the appropriate clinical setting. The Contractor shall establish inside medical specialty clinics (i.e. orthopedic, dermatology, cardiology, psychiatry, etc.). The types of inside medical specialty clinics offered shall be determined by a review of medical utilization data. A joint initial and annual OIMS/Contractor review shall be conducted of specialty clinic healthcare resource needs. The Contractor in-house medical staff shall also hold chronic care clinics as appropriate (i.e. diabetes, COPD, anticoagulation, etc.).

The contractor is responsible for the costs of all health care provided inside the contract detention facility, including prescription drugs. The Contractor shall utilize USMS established managed care provider networks where available. Where none are available, the Contractor will coordinate in advance with OIMS before establishing any local care arrangements. Where necessary, the Contractor shall establish arrangements with local health care providers to provide emergency medical care and medically necessary health care provided outside the facility. The contractor shall notify all outside medical care providers in advance that the rate of reimbursement for USMS' detainees is not to exceed Medicare rates.

The contractor is not responsible for the costs of emergency and pre-approved outside medical care provided by off-premises health care providers. The contractor shall direct all off-premises health care providers to submit bills for USMS' detainees directly to the contractor for review and submission to the appropriate USMS' District Office for certification, processing and payment to the third party providers. All medical billing incurred for ICE and BOP detainees will be directed to ICE or the BOP for review and payment.

All non-emergency outside care (i.e. medical, dental and mental health) for USMS' detainees shall require pre-authorization through the COTR in consultation with OIMS to ensure consistency with USMS' Prisoner Health Care Standards. If a USMS' National Managed Care System is established, pre-authorization will be handled through that Contractor. If pre-authorization is not obtained, the Contractor is responsible for the unauthorized medical care. Outside emergency care requires a confirmatory notification the next business day to the USMS' District Office.

The Contractor shall have written plans and procedures for providing prisoner access to medical, mental health and dental services for the facility per USMS' standards. The plans shall include, but are not limited to the following:

- 24-hour-a-day, seven day a week emergency medical care, mental health, and dental care;

- Daily triage of complaints;
- Sick call procedures;
- Special medical programs and services for, but not limited to, detainees with chronic needs or requiring convalescent care;
- Mental health care;

Routine dental or dental hygiene care other than to relieve detainees of pain and suffering are not covered. If no on-site dentist is available, a physician, physician’s assistant or nurse practitioner shall conduct the initial dental screening. Outside dental services for USMS’ detainees shall be pre-authorized by the COTR in consultation with OIMS.

C.6.6 Mental Health Services On-site to Detainees

All new detainees will receive an initial mental health/psychological screening within 24 hours of arrival at the facility. The Contractor will ensure that detainees have access to psychological/psychiatric services and employ appropriate intervention measures for detainees determined to have urgent mental health related needs, to include suicide watch as ordered. The contractor must immediately notify the U.S. Marshal and OIMS when the contractor has significant concerns related to a prisoner’s mental health status. All mental competency studies are to be conducted, under Federal Court order through the BOP.

C.6.7 Suicide Prevention Program

Detainees identified, as “at risk” for suicide will be promptly referred to appropriate medical and psychiatric staff for evaluation. All staff members working with detainees will receive initial training and annual refresher training on suicide prevention/monitoring.

C.6.8 Infectious Disease Prevention and Control Program

The Contractor shall have a comprehensive infectious disease prevention and control program in place in accordance with the most recent CDC guidelines. The TB Prevention program shall be initiated at intake with symptoms screening. This is to be followed up with TB testing within 48 hours of intake. Prisoners that refuse to submit to TB testing are to be reported to the U.S. Marshal and OIMS immediately in order that a Federal Court order can be issued to mandate such testing. Immuno-compromised prisoners shall receive chest x-ray screening at intake. At a minimum, annual screening shall be conducted for all detainees thereafter. The infectious disease program shall be responsive to all current emerging infectious diseases. The facility will provide digital radiological services which will enable same day diagnosis.

C.6.9 Detainee Death

The Contractor shall submit a written report to the Marshal within 24 hours. The Contractor shall fingerprint the deceased. Staff members performing the fingerprinting shall date and sign the fingerprint card to ensure that a positive identification has been made and file the card in the detainee’s file. Personal property of the deceased shall be inventoried and forwarded to the designated family member, the nearest of kin or the Consular Officer of the detainee’s country of legal residence.

If death is due to violence, accident surrounded by unusual or questionable circumstances, or is sudden and the deceased has not been under immediate medical supervision, the Contractor shall notify the coroner of the local jurisdiction to request a review of the case, and if necessary, examination of the body.

The Contractor shall establish coroner notification procedures outlining such issues as performance of an autopsy, who will perform the autopsy, obtaining state-approved death certificates, and local transportation of the body. All costs associated with an autopsy are normally the responsibility of the coroner’s office. The government is financially responsible for preparation and shipment of the body (if required) to the appropriate next of kin. The U.S. Marshal or his designee will ensure the body is turned over to the designated family member, the nearest of kin or the Consular Officer of the detainee’s country of legal residence.

C.7 Food Service

The Contractor shall provide detainees with nutritious, adequately varied meals, prepared in a sanitary manner while identifying, developing and managing resources to meet the operational needs of the food service program.

The mail service will meet all requirements of the Performance-Based Detention Standards (Section J, Attachment 10) on Correspondence and Other Mail.

C.8.2 Multi-Denominational Religious Services Program

A commissary shall be operated by the Contractor as a privilege to detainees who will have the opportunity to purchase from the commissary at least once per week.

The commissary inventory shall be provided to the COTR upon request. The Contractor may assess sales tax to the price of items, if state sales tax is applicable. Any revenues earned in excess of those needed for commissary operations shall be used solely to benefit detainees at the facility.

Detainees are permitted to receive funds from outside sources (i.e., from family, friends, bank accounts). Outside funds or those generated from work may be used to pay for products and services from the commissary.

C.8.5 Detainee Telephone System

Provide detainees with reasonable and equitable access to telephones as specified in the Performance-Based Detention Standards (Section J, Attachment 10) on Telephone Access. If authorized to do so under applicable law, the Contractor shall monitor and record detainee conversations. If detainee telephone conversations can be monitored under applicable law, the Contractor shall provide notice to detainees of the potential for monitoring. However, the Contractor shall also provide procedures at the facility for detainees to be able to place unmonitored telephone calls to their attorneys.

Telephone rates shall not exceed the dominant carrier tariff rate and shall conform to all applicable federal, state and local telephone regulations. Any income received by the contractor as a result of prisoner telephone calls which is in excess of expenses incurred, to include refunds/rebates from carriers, shall offset the cost of this contract. The contractor shall retain copies of any contracts between the contractor and the detainee telephone system provider(s). The contractor shall retain copies of all documentation in support of any agreement that the contractor has regarding income, refunds, rebates and other monetary or non-monetary reimbursements involving the detainee’s telephone system. The contractor shall also provide copies of all invoices and other documentation of expenses incurred and income received in regards to the detainee’s telephone system with its monthly request for contract payment and apply the credit against the monthly payment.

C.8.6 Detainee Work Program

Detainee labor shall be used in accordance with the detainee work plan developed by the Contractor and approved by the USMS. The detainee work plan must be voluntary, and may include work or program assignments for industrial, maintenance, custodial, service or other jobs. USMS' detainees may not be required to work. USMS' detainees may volunteer to work within the secure confines of the contract facility if they sign a
waiver of their right not to work. USMS detainees with suicidal tendencies, attempted escapes or escape
history, violent history, gang affiliations or with retainers for pending charges with other local, state or federal
agencies will not be considered for the volunteer program. USMS' detainees are not permitted to act as
Trustees and they may not work in positions that permit unsupervised contact with segregated prisoners or
detainees of the opposite sex. The USMS' detainees are restricted from operating equipment that may expose
the prisoners to grave bodily harm or any work assignment requiring security risk items and controlled tools
which could be used to facilitate an escape or used as a weapon that could endanger staff, citizens or other
inmates.

USMS detainees will not have access to prisoner or employee records. In addition, the contractor will ensure
that detainees who volunteer to work are denied access to prescription medications. USMS detainees must
obtain required medical clearances before working in the food service areas. The detainee work program shall
not conflict with any other requirements of the contract and must comply with all applicable laws and
regulations. Detainees shall not be used to perform the responsibilities or duties of an employee of the
Contractor. Appropriate safety/protective clothing and equipment shall be provided to detainee workers as
appropriate. Detainees shall not be assigned work that is considered hazardous or dangerous. This includes,

Statement 5251.05, Inmate Work and Performance Pay Program and BOP Operations memorandum 128-
90(5251) dated September 17, 1990. While this Operations Memorandum indicates that it has been cancelled,
it remains in effect and has not been updated.
See Section J, Attachment 10.

USMS detainees shall be required to participate in normal housekeeping duties which help ensure the
cleanliness of their housing area. Increases and reductions in privileges may be used as incentives to ensure
that USMS' detainees keep their living areas clean.

C.8.7 Special Needs of the Female Detainee Population

provide programs and services relative to the female gender. Female detainees shall be supervised within the
facility by at least one female correctional officer per shift.

The facility, whether new construction or an existing physical plant, shall be designed, constructed, operated and maintained in accordance with all applicable federal, state and local laws, regulations, codes, guidelines and policies. In the event of a conflict between federal, state, or local codes, regulations or requirements, the most stringent shall apply. The institution shall provide housing configurations commensurate with the security needs of the population.

The Contractor shall provide and maintain an electronic security alarm system, which will identify any unauthorized access to the institution's secure perimeter.

The facility, whether new construction or existing physical plant, shall comply with 40 U.S.C. 619, which stipulates compliance with nationally recognized codes and comply with the latest edition in effect on the date of proposal submission of one of the following codes:

A. The Uniform Building Code (UBC), with the state of facility location's Amendments
B. The Building Officials and Code Administrators (BOCA) National Building Code (NBC)
C. The Standard Building Code (SBC)

In the event the jurisdiction in which the facility is located does not mandate use of UBC, BOCA NBC or SBC, then the facility shall comply with the BOCA NBC.

Whether new construction or existing physical plant, fire protection and life safety issues shall be governed by the latest edition of the National Fire Protection Association (NFPA) 101, Code for Safety to Life from Fire in Buildings and Structures and applicable National Fire Codes (NFC). Should conflicts occur between NBC and NFC, NFC shall apply.

E.O. 12899 - Whether new construction or existing physical plant, the facility shall comply with the Seismic Safety of Federal and Federally Assisted or Regulated New Building Construction. The seismic safety requirements as set forth in either the 1991 International Conference of Building Officials, the UBC, the 1992 BOCA, NBC (or the 1992 Amendments to the Southern Building Code Congress) or SBC are the minimum standards. Should the code applicable for the state in which the facility is located be more stringent than the other codes set forth herein, the state code shall prevail.
The facility, whether new construction or existing physical plant, shall comply with the requirements of the Architectural Barriers Act of 1968 as amended and the Rehabilitation Act of 1973 as amended. The standards for facility accessibility by physically handicapped persons as set forth in "Uniform Federal Accessibility Standards" (UFAS) shall apply. The Contractor shall also comply with all applicable limitations and mitigation identified in any Environmental Assessment or Environmental Impact Statement prepared in conjunction with the contract pursuant to the National Environmental Policy Act, 42 U.S.C. 4321.

The Contractor shall be responsible for and shall indemnify and hold the Government harmless for any and all spills, releases, emission, disposal and discharges of any toxic or hazardous substance, any pollutant, or any waste, whether sudden or gradual, caused by or arising under the performance of the contract or any substance, material, equipment, or facility utilized. For the purposes of any environmental statute or regulation, the Contractor shall be considered the “owner and operator” for any facility utilized in the performance of the contract, and shall indemnify and hold the Government harmless for the failure to adhere to any applicable law or regulation established to protect the human or physical environment.

The Contractor shall be responsible in the same manner as above regardless of whether activities leading to or causing a spill, release, emission or discharge are performed by the Contractor, its agent or designee, a detainee, visitors, or any third party.

If a spill(s) or release(s) of any substance into the environment occurs, the Contractor shall immediately report the incident to the CO. The liability for the spill or release of such substances rests solely with the Contractor and its agent.

A safety program shall be maintained in compliance with all applicable federal, state and local laws, statutes, regulations and codes. The Contractor shall comply with the requirements of the Occupational Safety and Health Act of 1970 and all codes and regulations associated with 29 C.F.R. 1910 and 1926.

For all new construction, the construction schedule shall be updated to reflect current progress and submitted to the CO on a monthly basis. DOJ/USMS’ staff will make periodic visits during construction to verify Contractor progress and compliance with contract requirements.
As-built drawings and current drawings of the buildings and site utilities shall be maintained in a secure location during construction and contract performance. These updates shall be provided to the CO within 30 days of any changes made. Site utilities include, but are not limited to: water and sewer lines; gas lines; tunnels; steam lines; chilled water lines; recording layouts; elevations; modifications; additions; etc. Prior to receipt of the NTP, the Contractor shall provide the COTR and CO with copies of all certificates of compliance indicating that the facility has met all applicable federal, state and local applicable codes. When these certificates are renewed or updated, copies must be provided to the COTR and CO to show continued compliance. Two copies of the as-built drawings shall be provided to the CO in AUTOCAD release 14.0 on a CD-ROM no later than 90 days after issuance of the NTP.

Promptly after the occurrence of any physical damage to the institution (including disturbances), the Contractor shall report such damage to the CO. It shall be the responsibility of the Contractor to repair such damage, to rebuild or restore the institution.

SECTION E -- INSPECTION AND ACCEPTANCE

E.1 52.246-4 INSPECTION OF SERVICES--FIXED-PRICE (AUG 1996)

(a) Definitions. "Services," as used in this clause, includes services performed, workmanship, and material furnished or utilized in the performance of services.

(b) The Contractor shall provide and maintain an inspection system acceptable to the Government covering the services under this contract. Complete records of all inspection work performed by the Contractor shall be maintained and made available to the Government during contract performance and for as long afterwards as the contract requires.

(c) The Government has the right to inspect and test all services called for by the contract, to the extent practicable at all times and places during the term of the contract. The Government shall perform inspections and tests in a manner that will not unduly delay the work.

(d) If the Government performs inspections or tests on the premises of the Contractor or a subcontractor, the Contractor shall furnish, and shall require subcontractors to furnish, at no increase in contract price, all reasonable facilities and assistance for the safe and convenient performance of these duties.

(e) If any of the services do not conform to contract requirements, the Government may require the Contractor to perform the services again in conformity with contract requirements, at no increase in contract amount. When the defects in services cannot be corrected by reperformance, the Government may (1) require the Contractor to take necessary action to ensure that future performance conforms to contract requirements and (2) reduce the contract price to reflect the reduced value of the services performed.

(f) If the Contractor fails to promptly perform the services again or to take the necessary action to ensure future performance in conformity with contract requirements, the Government may (1) by contract or otherwise, perform the services and charge to the Contractor any cost incurred by the Government that is directly related to the performance of such service or (2) terminate the contract for default.

E.2 CONTRACTOR QUALITY CONTROL PLAN

The contractor shall develop, maintain and submit a Quality Control Plan (QCP) delineating the contractor's quality control program/inspection system to monitor and control their performance of services required in order to meet the requirements of the PWS. The program/inspection system shall explain in detail how the contractor shall sustain the quality of providing Comprehensive Detention Services.

E.3 GOVERNMENT QUALITY ASSURANCE SURVEILLANCE PLAN

(a) The OFDT's Quality Assurance Surveillance Program (QAP) is based on the premise that the contractor, and not OFDT, is responsible for management and quality control actions to meet the terms of the contract. The QAP procedures recognize that the contractor is not a perfect manager and that unforeseen and uncontrollable problems do occur. Good management and use of an adequate Quality Control Plan will allow the contractor to operate within acceptable quality levels.
(b) In accordance with FAR 52.246-4, Inspection of Services—Fixed-Price, each phase of the services rendered under this contract is subject to OFDT inspection both during the contractor's operations and after completion of the tasks. When the contractor is advised of any unsatisfactory condition(s), the contractor shall submit a written report to the Contracting Officer (CO) addressing corrective/preventive actions taken. The OFDT's QAP is not a substitute for quality control by the contractor.

(c) The Contracting Officer's Technical Representatives (COTR) may check the contractor's performance and document any noncompliance, however, only the Contracting Officer may take formal action for unsatisfactory performance.

(d) The OFDT may reduce the contractor's invoice or otherwise withhold payment for any individual item of nonconformance observed as specified below in the Contractor's Failure to Provide Services Clause. The Government may apply various inspection and extrapolation techniques (i.e., 100% surveillance, random sampling, planned sampling, unscheduled inspections, etc.) to determine the quality of services and the total payment due.

E.4 CONTRACTOR'S FAILURE TO PERFORM REQUIRED SERVICES

The rights of the Government and remedies described in this section are in addition to all other rights and remedies set forth in this solicitation. Specifically, the Government reserves its rights under the Inspection of Services and Termination Clauses. Any reductions in the contractor's invoice shall reflect the contract's reduced value resulting from the contractor's failure to perform required services. The contractor shall not be relieved of full performance of the services hereunder and may be terminated for default based upon inadequate performance of services, even if a reduction was previously taken for any inadequate performance.

E.5 FACILITY REVIEW (YEARLY)

The facility will be reviewed at least once every twelve months in accordance with the terms of the contract. Reviews will be done on a more frequent bases if specified in the contract, or if facility performances is found to be substandard.

(a) Review Process - A facility review will consist of five phases: pre-review preparation, on-site review, report production, review of conclusions, and follow-up review. If the facility has programs that receive "Deficient" or "At-Risk" performance ratings, the facility will undergo a follow-up review phase. If all of the facility's reviewed programs are judged to be "Acceptable" or better, the facility review will be closed after the facility has completed any specified corrective actions and action plans.

(b) Discovery of Deficiencies - The review team will investigate and report on any significant and relevant problems or areas needing improvement. Review team members will also examine the status and results of corrective actions implemented by the facility after recent reviews to determine whether the deficiencies have been remedied. A deficiency is defined as "a facility or facility administration problem or weakness noted by the review team that needs to be corrected." In its broadest sense, a deficiency includes any condition needing improvement, but the term "deficiency" also can be used to describe:

- Deviations from policy or regulation
- Weaknesses in internal controls
- Lack of quality controls
- Failure to observe accepted standards of practice for a particular profession
- Lack of operating efficiency
- Failure to meet program objectives
- Nonconformance with a key standard within the Performance-Based Detention Standards

(1) For each deficiency in a program area discovered during the on-site review, the Review Team Coordinator will determine whether the deficiency is indicative of a significant finding (i.e., a glaring deficiency or pattern of deficiencies substantial enough to conclude that corrective action is required). In evaluating the seriousness, or materiality, of each deficiency, the Review Team Coordinator will consider the risk presented by the deficiency to the facility's ability to effectively conform to the Performance-Based Detention Standards.

(2) If the Review Team Coordinator concludes that the deficiency is material enough to warrant a significant finding, the review team will collect and organize evidence of the deficiency in a manner that supports the significant finding and will investigate its causes and effects for inclusion in the facility review report. Each significant finding presented in the report will describe the deficient condition(s), provide one or more examples, explain why it is deficient, detail its existing and potential effects, suggest its probable cause, and identify required (binding) and recommended (non-binding) corrective action(s) to rectify the deficiency.

(3) Deficiencies deemed by the Review Team Coordinator to be insufficiently material to justify presentation, as one or more significant findings will be disclosed in a separate section of the facility review report. This separate section will include non-binding recommendations for corrective action that the contractor will be encouraged to implement. A contractor's failure to implement a non-binding recommendation will not, by itself, cause the facility to receive a lower performance rating during its next facility review. However, if the facility exhibits worsening performance partly as a result of not implementing the recommended corrective action, it could earn a lower performance rating during the next review.

(c) Life-Threatening Conditions and Public Safety Concerns – Review team members will alert the Review Team Coordinator to any facility conditions that might pose a threat to detainees' lives or compromise facility security to a degree that the lives of facility staff or the public are endangered. The Review Team Coordinator, in turn, will investigate the condition further with review team members. If the Review Team Coordinator confirms the condition's severity, he or she will discuss it with the contractor as soon as possible, and will encourage the contractor to correct the condition before the on-site inspection is completed.

(d) Fraud, Abuse, and Illegal Acts – The review team will inform the Review Team Coordinator if it discovers any evidence of fraud, abuse, or illegal acts. The Review Team Coordinator will inform the contractor of these discoveries and will include descriptions of the offending activities in a special and prominent section of the facility review report.

(e) Hindered Reviews – Facility programs that cannot be adequately reviewed due to a lack of cooperation from facility staff, the staff's failure to adequately prepare for the on-site inspection, or by interference with the review itself will receive an “At-Risk” performance rating for each program that was inadequately
evaluated. In these cases, the review team will attempt to evaluate all programs to the extent possible despite the hindrances. The review team will complete a review report that includes descriptions of the manner in which the review team was prohibited from completing proper program evaluation.

(f) Cancellation of Reviews due to Unforeseen Circumstances – Scheduled and confirmed facility reviews that cannot be conducted due to circumstances beyond the control of the facility staff or the review team (e.g., inclement weather that precludes review team travel, a staff medical emergency, etc.) will be rescheduled for the earliest possible date. The Review Team Coordinator will inform the contractor of the dates for the rescheduled review within 10 days of the original review's postponement. A contractor can request a facility review postponement by formally submitting this request to the Review Team Coordinator, along with an explanation of the circumstances justifying the cancellation. Facility review postponements and rescheduling will rarely occur. Each occurrence will be documented in the review file of the corresponding facility; this file will include a signed formal letter explaining why the postponement was needed.

(g) Performance Ratings - During a facility review, performance ratings will be assigned to the facility for each of the nine programs identified by the Performance-Based Detention Standards. The review team will use the following individual program performance ratings to assign an overall performance rating to the facility:

**Excellent:** The program conforms to the Performance-Based Detention Standards in an exceptional manner and conformance is maintained with exceptional internal controls. Policies and procedures for achieving the program standards are documented and adequate for the mission of the facility; the policies and procedures are communicated to staff; the policies and procedures are fully implemented; and the desired outcome is achieved. The level of performance in the aggregate exceeds the minimum performance standard by substantial margin; deficiencies are nonexistent or extremely minor.

**Good:** The program conforms to the Performance-Based Detention Standards in an acceptable manner. Internal controls limit procedural deficiencies. The facility more than accomplishes the requirements of program standards. The level of performance in the aggregate meets the performance standards; deficiencies are minor and offset by outstanding elements of performance within the review guideline.

**Acceptable:** The program is meeting the requirements of the Performance-Based Detention Standards. There are no breakdowns that would keep the program from continuing to accomplish the mission of the facility. Level of performance in the aggregate meets the performance standards; deficiencies are minor and there are no outstanding elements of performance present within the review guideline.

**Deficient:** The program is unable to meet the requirements of one or more of the Performance-Based Detention Standards. Internal controls are weak, resulting in serious deficiencies in one or more areas. The level of performance in the aggregate fails to meet the performance standard; deficiencies are pervasive.

**At-Risk:** Operation of the program is impaired to the point that the facility is unable to accomplish its mission. The program is unable to meet the requirements of the Performance-Based Detention Standards.
Standards and is unlikely to meet those requirements in the foreseeable future without substantial corrective action. The level of performance in the aggregate falls to meet the performance standards: deficiencies require immediate corrective actions.

(h) Review Conclusions:

(1) Review of Initial Review Report – The Review Board will examine the initial facility review report and the recommendations produced by the review team, and will furnish the Review Team Coordinator with any changes within 10 calendar days after receiving the report. Review team members will be consulted to clarify any ratings that appear inconsistent with the report narrative.

(2) Transmittal of Report to Contractor – The Review Team Coordinator will make the stipulated report changes within 10 days after receiving comments from the Review Board, and will transmit the updated report to the Review Board, Contracting Officer and contractor. If no corrective actions are required, the contractor will contact the Review Team Coordinator within 30 days to acknowledge receipt of the report, and at this time may comment on the contents of the report or the overall rating received. If corrective actions are required, the contractor will declare either agreement or disagreement with the binding recommendations in the report. If the contractor is in agreement with the findings, he/she will report back to the Review Team Coordinator on the steps taken to comply with the binding recommendations within 30 days of receiving the facility review report. For each action that the contractor does not expect to complete within 30 days, a written action plan identifying target dates for completing each major step will be developed and included in the report. The Review Team Coordinator will review the contractor administrator's response to ensure that it is complete and that all required corrective actions have been taken, or that an action plan has been developed to remedy significant findings within 90 days of the facility review report's issue. The facility Review Team Coordinator will forward all appropriate facility review documentation to the Contracting Officer, as necessary.

(3) Appeals of Review Findings – If the contractor disagrees with any finding, binding recommendation, or performance rating, he or she will submit a formal written appeal to the Review Board within 30 days of receiving the facility review report. In this appeal, the contractor will explain why a rating or finding is unjustified, or why a required action cannot or will not be taken. In the latter case, the contractor will suggest alternative methods of correcting the deficiency or of improving the program. The Review Board will evaluate the appeal and, if necessary, will discuss its merits with the review team. Within 30 days of receiving the appeal, the Review Board will decide whether to accept or deny the appeal and will send formal written notification of this decision through the Contracting Officer to the contractor and review team. If an appeal is accepted, the Review Team Coordinator will amend the facility review report to reflect approved changes. After decisions have been reached on any appeals, the Review Team Coordinator will distribute copies of the final version of the facility review report to all involved parties. The contractor will implement corrective actions and develop action plans for corrections that cannot be completed within 30 days. Corrective actions described by action plans will be completed within 90 days of the facility review report's issue.

(i) Follow-up Review

(1) Communication of Corrective Actions Needed – For each action that cannot be completed within 30 days, the contractor will develop a written action plan identifying target dates for completing each
major step. All actions will be completed no more than 90 days after the issue of the final review report. The contractor will send the action plans to the Review Team Coordinator and Contracting Officer within 30 days of the final facility review report's issue. The Review Team Coordinator will review the action plans and will determine whether they will adequately address the underlying deficiencies.

(2) **Review of Completed Corrective Actions** – The contractor will implement all corrective actions specified in the final team report and will formally document the actions taken, sign this document, and submit it to the Review Team Coordinator or other designated monitor. After receiving documentation of completed corrective actions and action plans from the contractor, the review team will determine whether to conduct one or more follow-up reviews to verify firsthand that the deficiencies have been remedied. Follow-up inspections will be conducted within 30 days of receipt of documentation from the contractor. This inspection will focus only on the program(s) affected by the corrective actions. The Review Team Coordinator will verify that the documentation provided by the contractor is accurate and that the corrective actions taken do not reduce facility performance in other areas below an "Acceptable" level. The Review Team Coordinator will hold a closeout meeting with the contractor at the end of the follow-up inspection to discuss its preliminary conclusions.

(3) **Follow-Up Review Report** – No later than 14 days after the end of the follow-up inspection, the Review Team Coordinator or monitor will prepare a formal written report presenting the results of the follow-up review, and will submit this report to the contractor and Review Board. If no on-site review is done, the report will be completed within 30 days of receipt of documentation from the contractor. This report will indicate whether the corrective actions sufficiently improve the affected facility programs to an "Acceptable" performance level or better. If the Review Team Coordinator or monitor deems that facility changes are adequate, the follow-up review and facility review will be closed, and the Contracting Officer and the contractor will be notified of the closure. None of the performance ratings for facility programs will be altered as a result of the follow-up review, no matter how well the facility addresses its deficiencies, and the next facility program reviews will be scheduled according to the procedures described previously.

(4) **Appeals of Follow-Up Conclusions** – If the Review Team Coordinator or monitor concludes that the corrective actions taken by the facility are inadequate to bring the reviewed facility programs to an "Acceptable" performance level or better, the contractor will be given 10 days to appeal this conclusion. To lodge an appeal, the contractor will formally submit a written letter detailing any flaws in the follow-up analysis and explaining why the facility’s improvements meet the corrective actions prescribed. The Review Board will weigh the appeal and issue a decision no later than 10 days after receiving it. The follow-up review report will be amended to reflect the Review Board's decision, if the Review Board agrees with the contractor's argument. The follow-up review and facility review will be closed and the Contracting Officer and the contractor will be notified of the closure. The next facility program reviews will be scheduled.

(5) **Filing and Retention of Review Report** – When a facility review is closed, all reports completed as part of the facility review—including completed and closed follow-up review reports—will be included in the facility review file. An inventory of reports other background information regarding the facility’s performance that were collected from other agencies during the pre-inspection preparation phase will also be kept. The government will retain these support documents and all working documents generated during a facility review in accordance with requirements in the FAR. Only one review file and set of support
documents will be retained for each facility. After the retention period has elapsed, the government will archive the working documents in accordance with government regulations.

**E.6 INSPECTION BY REGULATORY AGENCIES**

Work described within the contract is subject to inspection by other regulatory agencies. The contractor shall respond to all requests for information and inspection or review findings by regulatory agencies.

**E.7 PERFORMANCE EVALUATION MEETINGS**

The contractor's representatives shall meet with the COTRs and the CO on a regular basis as determined necessary by the CO. These meetings will provide a management level review and assessment of contractor performance, a discussion and resolution of problems, and, if applicable, a draft of the contractor's proposed invoice. A mutual effort will be made to resolve all problems identified. The contractor is responsible for the preparation of the meeting minutes. The contractor's representative shall sign the written meeting minutes and OFDT's representative.

**E.8 INSPECTION AND RECEIVING REPORT**

(a) The contractor shall prepare an original invoice plus two copies. (See Section G for invoice preparation.) The Original Invoice shall be furnished to the COTR. An additional copy of the invoice, clearly marked as an Information Copy, shall be submitted to the CO to increase efficiency in the certification process.

(b) Upon receipt of a proper invoice, the COTR will certify that the services were satisfactorily performed and forward to the CO for coordination.

2) APPLICABLE TO AIR TRAFFIC CONTROLLERS ONLY - NIGHT DIFFERENTIAL: An employee is entitled to pay for all work performed between the hours of 6:00 P.M. and 6:00 A.M. at the rate of basic pay plus a night pay differential amounting to 10 percent of the rate of basic pay.

If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

HAZARDOUS PAY DIFFERENTIAL: An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordinance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder, and photoflash powder. All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.
**UNIFORM ALLOWANCE**

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of $3.35 per week (or $.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

**NOTES APPLYING TO THIS WAGE DETERMINATION**

Under the policy and guidance contained in All Agency Memorandum No. 159, the Wage and Hour Division does not recognize, for section 4(c) purposes, prospective wage rates and fringe benefit provisions that are effective only upon such contingencies as "approval of Wage and Hour, issuance of a wage determination, incorporation of the wage determination in the contract, adjusting the contract price, etc." (The relevant CBA section) in the collective bargaining agreement between (the parties)
contains contingency language that Wage and Hour does not recognize as reflecting "arm's length negotiation" under section 4(c) of the Act and 29 C.F.R., 5.11(a) of the regulations. This wage determination therefore reflects the actual CBA wage rates and fringe benefits paid under the predecessor contract.

Source of Occupational Title and Descriptions:

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE (Standard Form 1444 (SF 1444))

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. (See Section 4.6 (C) (vii)) When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

1) When preparing the bid, the contractor identifies the need for a conformed
occupation) and computes a proposed rate).

2) After contract award, the contractor prepares a written report listing in order proposed classification title), a Federal grade equivalency (FGE) for each proposed classification), job description), and rationale for proposed wage rate), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.

3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).

4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.

5) The contracting officer transmits the Wage and Hour decision to the contractor.

6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

Overview:

Federal Acquisition Regulation (FAR), subpart 19.708(b) prescribes the use of clause FAR 52.219-8, entitled "Small Business Subcontracting Plan." The following is a suggested model for use when formulating such subcontracting plan. While this model plan has been designed to be consistent with FAR 52.219-9, other formats may be acceptable. However, failure to include the essential information as exemplified in this model may cause either a delay in acceptance or the rejection of a bid or offer where the clause is applicable. Further, the use of this model is not intended to waive other requirements that may be applicable under FAR 52.219-9.

"Subcontract," as used in this clause, means any agreement (other than one involving an employer-employee relationship) entered into by a Federal Government prime contractor or subcontractor calling for supplies or services required for performance of the contract or subcontract.

The offeror, upon request by the Contracting Officer, shall submit and negotiate a subcontracting plan, where applicable, that separately addresses subcontracting with small business, veteran-owned small business, HUBZone small business concerns, small disadvantaged business, and women-owned small business concerns.

INTRODUCTION: To facilitate the surveillance of the Contractor's Quality Control Program/inspection System by the Government, the Contracting Officer's Technical Representative (COTR) will verify contractor compliance with designated performance requirements by establishing a QAP. The COTR is the primary Quality Assurance Representative. The COTR will be responsible for the review functions, the handling of nonconformance and the ultimate point of acceptance.

The contract requirements are divided into various disciplines, each of which has a number of Performance-Based Detention Standards. Successful performance of a functional area is essential for successful performance of the related discipline. Each discipline comprises a specific percentage of the overall contract requirement. Adjustments in contract price will be based on these percentages applied to the overall monthly invoice.

The Government reserves the right to develop and implement new inspection techniques and instructions at any time during contract performance without notice to the contractor.

The contractor shall be paid on a monthly basis, as such services provided for each billing cycle must be determined based on performance to be Acceptable: The level of performance in the aggregate meets the performance standard; deficiencies are minor and no outstanding elements of performance are present within the review guideline; Unacceptable: The level of performance in the aggregate fails to meet the performance guidelines: deficiencies are pervasive. The aforementioned ratings will be applied in relations to the applicable payment schedule and delivery of services.

PERFORMANCE RATINGS: The following is a list of ratings that will be assigned:

Excellent: The program conforms to the Performance-Based Detention Standards in an exceptional manner and conformance is maintained with exceptional internal controls. Policies and procedures for achieving the program standards are documented and adequate for the mission of the facility; the policies and procedures are communicated to staff; the policies and procedures are fully implemented; and the desired outcome is achieved. Level of performance in the aggregate exceeds the minimum performance standard by substantial margin; deficiencies are nonexistent or extremely minor.

Good: The program conforms to the Performance-Based Detention Standards in an acceptable manner. Internal controls limit procedural deficiencies. The facility more than accomplishes the requirements of program standards. Level of performance in the aggregate meets the performance standard; deficiencies are minor and offset by outstanding elements of performance within the review guideline.

Acceptable: The program is meeting the requirements of the Performance-Based Detention Standards. There are no breakdowns that would keep the program from continuing to accomplish the mission of the facility. Level of performance in the aggregate meets the performance standards; deficiencies are minor and there are no outstanding elements of performance present within the review guideline.

Deficient: The program is unable to meet the requirements of one or more of the Performance-Based Detention Standards. Internal controls are weak, resulting in serious deficiencies in one or more areas. The level of performance in the aggregate fails to meet the performance standards; deficiencies are pervasive.
At-Risk: Operation of the program is impaired to the point that the facility is unable to accomplish its mission. The program is unable to meet the requirements of the Performance-Based Detention Standards and is unlikely to meet those requirements in the foreseeable future without substantial corrective action. The level of performance in the aggregate fails to meet the performance standards: deficiencies require immediate corrective actions.

The PRS and the Performance-Based Detention Standards are based on ACA standards, the Performance Work Statement (PWS), professional guidelines referenced by the PWS, applicable Government policy and any other appropriate measures within the contracted services.

The PRS and Performance-Based Detention Standards identify:

- Each contract requirement, the Performance-Based Detention Standards, and quality level essential for successful performance of each contract requirement;
- Summarize the Performance-Based Detention Standards; and
- Specify the maximum percentage of total deduction in contract price attributable to each contract requirement.
