

U.S. MARSHALS SERVICE “OVER-THE-COUNTER” MEDICATION LIST

The following list of medications is “over-the-counter” (OTC) medications for minor conditions, listed alphabetically and by category. *This list includes many examples of common OTC medications, both generics and brand names, but it is not all-inclusive.* It is expected that detention facilities that house USMS prisoners will provide OTC medications as part of their inside medical care, which is covered by the per diem paid to facilities by the USMS. *Claims should not be submitted to the USMS for OTC medications.* Please note that some OTC medications are also available at higher strengths *by prescription only* and are reimbursable only at those higher strengths. The USMS Medical Management Branch may audit claims if concerns arise that prescription strength medications are being used when OTC medications would be sufficient. This list is intended for use by USMS employees and detention facilities only. Questions about OTC and prescription medications should be directed to the USMS Medical Management Branch, Tel (703) 740-8417 or Fax (703) 740-029-8418.

MEDICATIONS BY ALPHABETICAL LISTING

A&D Ointment
Acetaminophen
Actifed
